DETAILED ACTION

Rejections and/or objections necessitated by the amendments

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 10 as currently amended, and 7-9, and 16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable Nakayama et al. (US patent 6,621,172) in combination with Hirakata et al. (US patent 6,638,781) and Song et al. (US publication 2005/0110124).

With respect to claims 1 and 10 as currently amended and 16-18 as previously presented, Nakayama et al. in combination with Hirakata et al. teach the claimed invention. See the rejection dated 01/12/06.

Further respect to claims 1 and 10 as currently amended, Nakayama et al. in combination with Hirakata et al. fail to teach forming a passivation layer on the first surface of the chip.

Song et al. teach forming a passivation layer on a surface of a chip to allow the formation of an electrode. See [0029].

It would have been obvious to one of ordinary skill in the art of making semiconductor devices to incorporate the teaching of Song et al. into the device of Nakayama et al. and Hirakata et al. to allow the formation of electrode and subsequent interconnect.

Further respect to claims 1 and 10 as currently amended, see the rejection of claims 5 and 14 in the rejection dated 01/12/06.

Response to Arguments

Applicant's arguments with respect to claims 1 and 10 and 7-9, and 16-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
